

What's Next

Life Science Cares is growing, thanks to the investment of time, talent and treasure from people like you. In 2019, we opened our first affiliate organization in Philadelphia. In early 2021, we expanded to the West Coast with sites in San Diego & the Bay Area. **It is our intention to eliminate poverty in every city where a life science hub exists.**

What's next depends on you!

In Boston, we have pledged to double our grantmaking in 2021 and partner with other funders to ensure a just and equitable recovery from the pandemic.

There's so many ways to get involved both as an individual and an organization:

Join: Companies can join Life Science Cares as a sponsoring member. Life Science Cares member companies have access to 100+ volunteer opportunities and events throughout the year. Our professional staff handles the logistics and provides volunteers with any training or support necessary to ensure a meaningful experience. With more than two dozen current partners spanning a wide spectrum of issue areas—from basic needs, to education, to job training, and beyond—Life Science Cares is ready to offer an experience that will resonate with you. Email christine@lifesciencecares.org to join.

Sponsor: Our two signature events, the Impact Breakfast and our Mini Golf for Good Tournament, as well as this year's Timmerman Traverse to Benefit Life Science Cares, all give companies the opportunity to support our lifesaving mission and engage employees in uplifting fun. By aligning with our mission as an event sponsor, you send a powerful message to clients, employees, and the general public that your company actively supports our community and a more just and equitable future. Email christine@lifesciencecares.org to sponsor an event.

Give: Through decades of service to the community, our partner organizations know what works to effectively and permanently lift people out of poverty. It's our job to ensure they have all the resources they need to execute their missions while backing them up with volunteer muscle, donated goods, and problem solving skills. We pride ourselves on providing unrestricted support through a no-hassle grant process. None of this is possible without our donors. Making a monthly gift is the best way to show your support. You can give on [our website!](#)

Volunteer: Life Science Cares leverages the “people power” of the life sciences industry to support our partner nonprofit organizations by organizing regular or one-time volunteer opportunities. Whether it be volunteering for a few hours with one of our local nonprofits or committing to a regular schedule of service, individuals can leave the planning and details to LSC and focus on making an impact. See our [list of opportunities](#) to get involved.
