**To whom it may concern**

Dear All!

The Ministry of Health of Ukraine expresses its deep to You.

Ukraine suffers from unprovoked aggression from Russian Federation. We have entered the stage of a hot open struggle against the aggressor. Russian military forces in violation of all UN norms and conventions is bombarding the civil population. Ukrainians are doing everything possible to defend their homeland in this bloody battle. In these difficult times we can't wait, we need your help!

In this regard, we ask you to provide humanitarian assistance to Ukraine according to the attached list.

But the urgent need is for medical opioids (morphine, fentanyl etc), painkillers, blood containers, bandaging materials and surgical kits.

Everyday thousands of physicians that are volunteering close to the frontlines (including Kyiv in Kharkiv) are in great need for protective equipment not limited to helmets and bulletproof vests.

Given that, we ask government institutions, NGOs and businesses to assist.

Sincerely,

**Deputy Minister for  
European Integration**

**Oleksii IAREMENKO**
